MOHAMED A HAROON

Aspiring AI Engineer & Front-End Developer

mohamedharoon2109@gmail.com | github.com/haroon2109 | linkedin.com/in/mohamed-a-haroon

SUMMARY

Final-year B.Tech Artificial Intelligence & Data Science student with experience developing AI/ML and LLM powered applications using Python and full-stack technologies. Built and prototyped real-world AI solutions across education, climate, healthcare, agriculture, and information verification.

SKILLS

Programming Languages : Python, C, C#, R, SQL
Web & Databases: HTML, CSS, FastAPI, MongoDB, Supabase
AI/ML Frameworks : Scikit-learn, OpenCV, PaddleOCR, LLM Applications, Agentic Frameworks
Tools : Git, GitHub, Power BI, Figma
Languages : English (Fluent), Tamil (Fluent), Urdu (Native), Hindi (Basic)

PROJECTS

Kagaz-AI

- Developed an AI-assisted school worksheet evaluation platform combining PaddleOCR, document analysis, and LLMs to process handwritten student responses.
- Integrated Gemini API with FastAPI to generate multilingual feedback and identify student learning gaps.

Madras

- Developed a zone-level rainfall intelligence platform covering all 15 Chennai zones for flood-risk assessment and automated alerts.
- Built automated pipelines integrating Open-Meteo, ECMWF, and NOAA GFS data, with risk scoring and forecast-accuracy analysis.

Neulens

- Prototyped a startup concept for accessible preliminary neurological screening for older adults, with a functional prototype currently being explored for further development and funding.

EDUCATION

B.Tech - Artificial Intelligence and Data Science [2023 - 2027]
Rajalakshmi Institute of Technology, Chennai | CGPA: 8.23

XII - Tamilnadu state board [2021 - 2023]
Vivekananda Higher Secondary School, Chennai | Score: 94.3%

EXPERIENCE

Intern – ICCC (Integrated Command and Control Center), Greater Chennai Corporation
Acetech Machinery Company [Nov 2025 – Dec 2025]

- Contributed to data analysis and dashboard development for smart city operations.
- Worked with smart-city/IoT data workflows and large-scale operational datasets.

Competitions & Recognition

- **AICCI National Startup Summit 2026 (Finalist):** Pitched the startup idea to the jury at the national summit organized by StartupTN.
- **Ideas for India Challenge 2026 (Finalist):** Reached the national jury stage and presented the solution in Delhi with a sponsored trip from the organizers.
- **SahAI for Shiksha Hackathon 2026 (Top 30):** Ranked among the Top 30 teams nationally in an AI-for-Education challenge by Wadhwani AI and Google.org.
- **APOGEE GameJam 2026 (Finalist):** Advanced to the national final round at BITS Pilani based on rapid game prototype evaluation.

CERTIFICATES

- **Python for Data Science -** 2023
- **Google AI Essentials -** 2024
- **Google Crash course on Python** - 2024
- **Google Prompting Essentials -** 2025
